

How to start following Marcus Band on Twitter!

If you have not already done so, go to www.twitter.com and set up a free account. Once you are logged in, click on the “Find People” tab at the top. Do a search for Marcus Band. Once you see the Marcus Band, click on the dropdown arrow under Actions. Click “Follow Marcus Band”.

After you have done that, send an email to webmaster@marcusband.com and put “Twitter” as the subject. In the body of the email, include your full name and email address that is/was used in the Charms database. This will be used for verification since not everyone uses their real name in Twitter.

Once you have been confirmed, you may go back to your twitter account to get the Marcus Band “Tweets”!

If you would like to receive Band tweets on your cell phone via SMS text messages, please follow the instructions in Twitter’s help section. There are different ways to set this up depending on what kind of phone you have.

If you want to STOP receiving SMS text messages from the band, simply reply to any message with OFF.

Note: Be sure to check with your cell provider to make sure text messages are covered in your phone's service plan.
